Sr. Ilia is a world-renowned speaker and writer who holds the Josephine C. Connelly Chair in Christian Theology at Villanova University and has authored over twenty books.

"A Hunger for Wholeness: Greening the Earth and the Fecundity of Life."

We are made for wholeness and long for unity but centuries of dualistic thinking have created an artificial disconnect between humans and earth. Can we reconnect to the earth in a world driven by technology? Can we see the world in its truth and beauty in a world blinded by consumerism? In this talk I will focus on the vision of Teilhard de Chardin and the way he saw Christianity at the heart of evolution. How to find the power of God's love in a world of change is essential to renewal of the earth and our longing for wholeness.
